Medicaid Fiscal Agent Information on the Internet

<http://coloradomedicaid.acs-inc.com>

Medicaid bulletins contain important policy and billing information and should be shared promptly with billing staff.

Bulletins supplement information in the Medicaid Provider Manual and should be retained with the provider manual for reference. Retain all bulletins until published notification advises that the information is obsolete or reproduced in subsequent bulletins or provider manual updates.

Please direct questions about bulletins and billing information to Medicaid Provider Services.

Classification of Enteral and Oral Formulas

The Colorado Medicaid Program has completed its review of enteral formulas and oral nutritional supplements. The review was done to insure that similar individual products were placed in the same categories. The Department of Health Care Policy & Financing worked with providers to evaluate appropriate categories for these products. The review also showed the need for standardizing reimbursement for oral and enteral categories. The reimbursement for each of the HCPCS codes remains the same. The following individual products should be billed under the appropriate HCPCS code for its category.

The following Enteral and oral formula changes and additions are effective October 1, 2002:

The Pediatric Elemental Formulas listed below have been placed in Category V under HCPCS Code B4155:

Alimentum	Nutramigen
Elecare	Peptamen Junior
L-Emental Pediatric	Portagen
Neocate Infant	Pregestimil
Neocate Junior	Pro-Peptide For Kids
Neocate One+Liquid	Vivonex Pediatric
Neocate One+Powder	

The Standard Pediatric Products without fiber listed below have been placed in Category VI under HCPCS Code B4156:

Kindercal	Pediasure
Kindercal TF	Resource Just For Kids
Nutren Jr	

The Standard Pediatric Products with fiber listed below have been placed in Category III under HCPCS Code B4153:

Kindercal With Fiber	Pediasure With Fiber
Kindercal TF Fiber	Resource Just For Kids With Fiber
Nutren Jr With Fiber	

The miscellaneous oral supplements and low-caloric content products listed below should be billed under HCPCS Code X4155. These products will continue to be reimbursed by-invoice:

Enlive	NuBasics Juice Drink
Boost Breeze	Resource Fruit Beverage
Benefiber	Promod
Casac	Propac
Duocal	Propac Plus
Egg/Pro Powder	Rehydralyte
MCT Oil	Resource Instant Protein Powder
Microlipid	Resource Thickened Juice
Moducal	Resource Thicken-Up
Pedialyte	Thick-It
Polycose	

2002 Supply HCPCS revised Appendix D

Also included with this bulletin is the revised Supply HCPCS Appendix D (Enteral Nutrition Product Classification List). Please replace Appendix D in Bulletin #B0200121, February 2002 with the attached Supply Appendix D, revised October 2002.

Product clarification:

PRODUCT NAME	MANUFACTURER	CATEGORY	HCPCS CODE
Enfamil Lacto Free	Mead Johnson	I	B4151
Ensure High Calcium	Ross/Abbot Lab	I	B4150
Ketocal	SHS	I	B4151
Kindercal Lacto Free	Mead Johnson	I	B4151
These products have been added to the Supply HCPCS revised Appendix D.			

Prior Authorization Requests (PARs) for nutritional supplements

Providers should continue to bill using the PAR that was originally approved for nutritional supplements. Submit a new PAR when the current PAR ends or when billing other codes requiring PARs.

Children's extra large diapers

Providers billing for children's extra large diapers should use procedure code X2022 (Youth brief). Do *not* bill extra large children's diapers as an adolescent or child pull-up briefs.

Please direct questions about Medicaid billing or the information in this bulletin to:

**Medicaid Provider Services at
303-534-0146 or 1-800-237-0757 (toll free Colorado).**

Prosthetic and Orthotic Changes

Effective for services rendered on and after October 1, 2002, prior authorization is no longer required for many prosthesis and orthosis codes. Providers are asked to continue providing these services to Medicaid clients only when medically necessary. The definition of medical necessity includes the requirement that the provided service be the least costly service or appliance that meets the client's medical needs. The provider must maintain client records supporting medical necessity for a period of at least six (6) years from the date of service.
